STRATEGICKÁ VRSTVA

# Resource

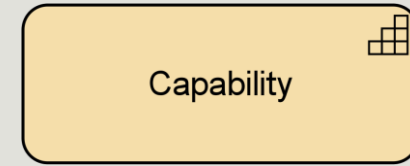

---

A resource represents an asset owned or controlled by an individual or organization

Resources are realized by active and passive structure elements

# Capability

---

A capability represents an ability that an active structure element, such as an organization, person, or system, possesses

Often used for capability-based planning

All behavior elements can realize capabilities

Expressed in general and high-level terms and are typically realized by a combination of organization, people, processes, information, and technology

# Functions vs. Capabilities

---

## Business Function

Často priamo prepojená s organizáciou

Explicitné rozoznaná a manažovaná

Viac zameraná na súčasnosť a fungovanie organizácie

Môže realizovať capability

Môže sa vyskytovať viackrát

## Capability

Nezávislá na organizačnej štruktúre

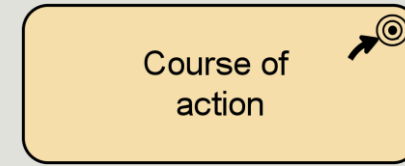

Nie vždy explicitne rozoznaná

Jednotka strategickej zmeny, analýza

Vyskytuje sa práve raz v organizácii

# Course of Action

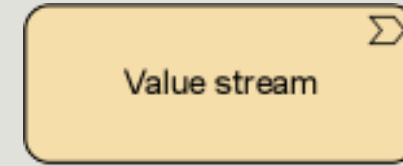

---

A course of action is an approach or plan for configuring some capabilities and resources of the enterprise, undertaken to achieve a goal

A course of action represents what an enterprise has decided to do

# Value stream

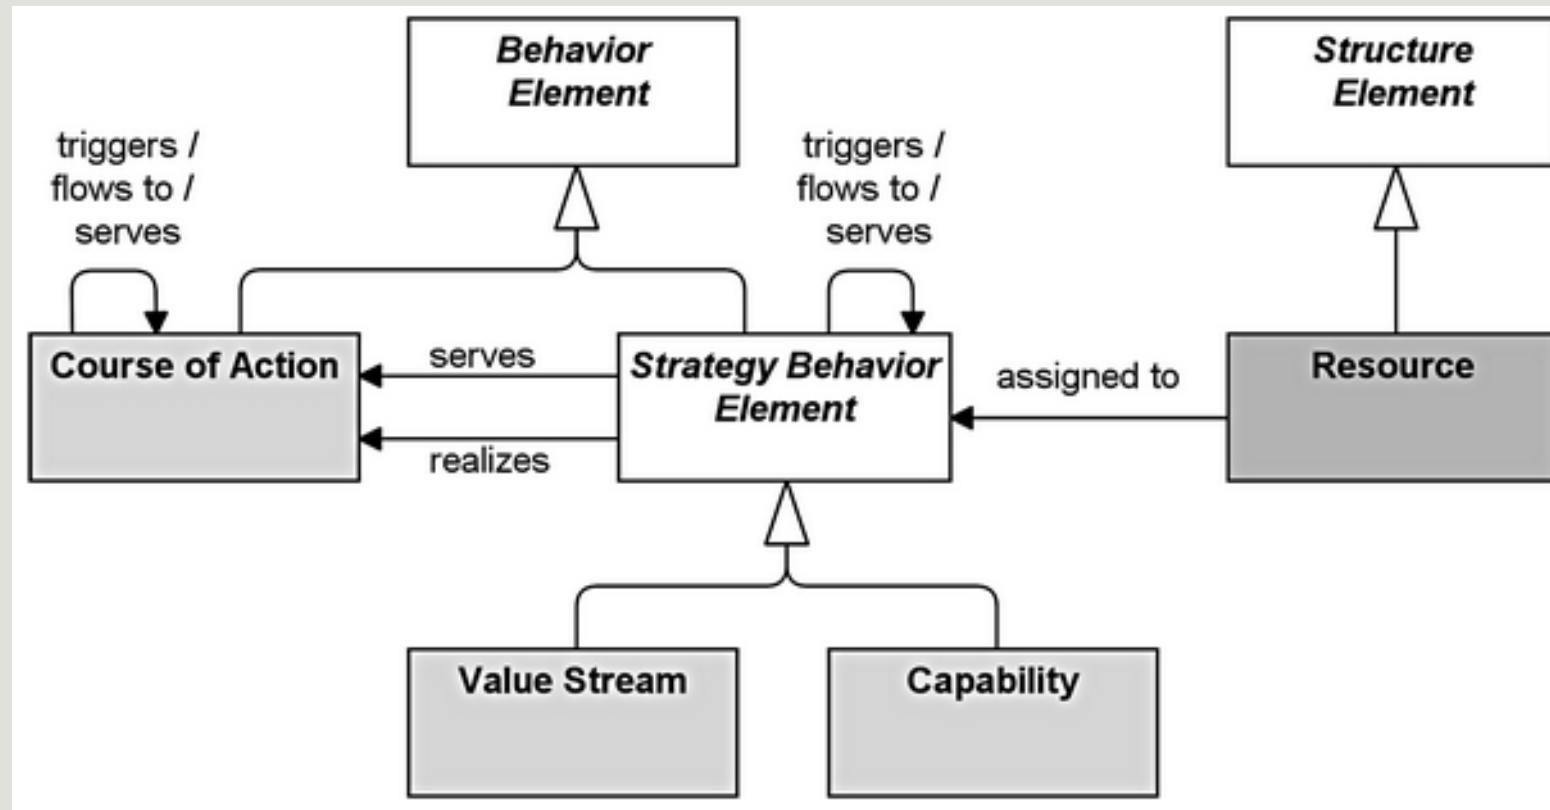

---

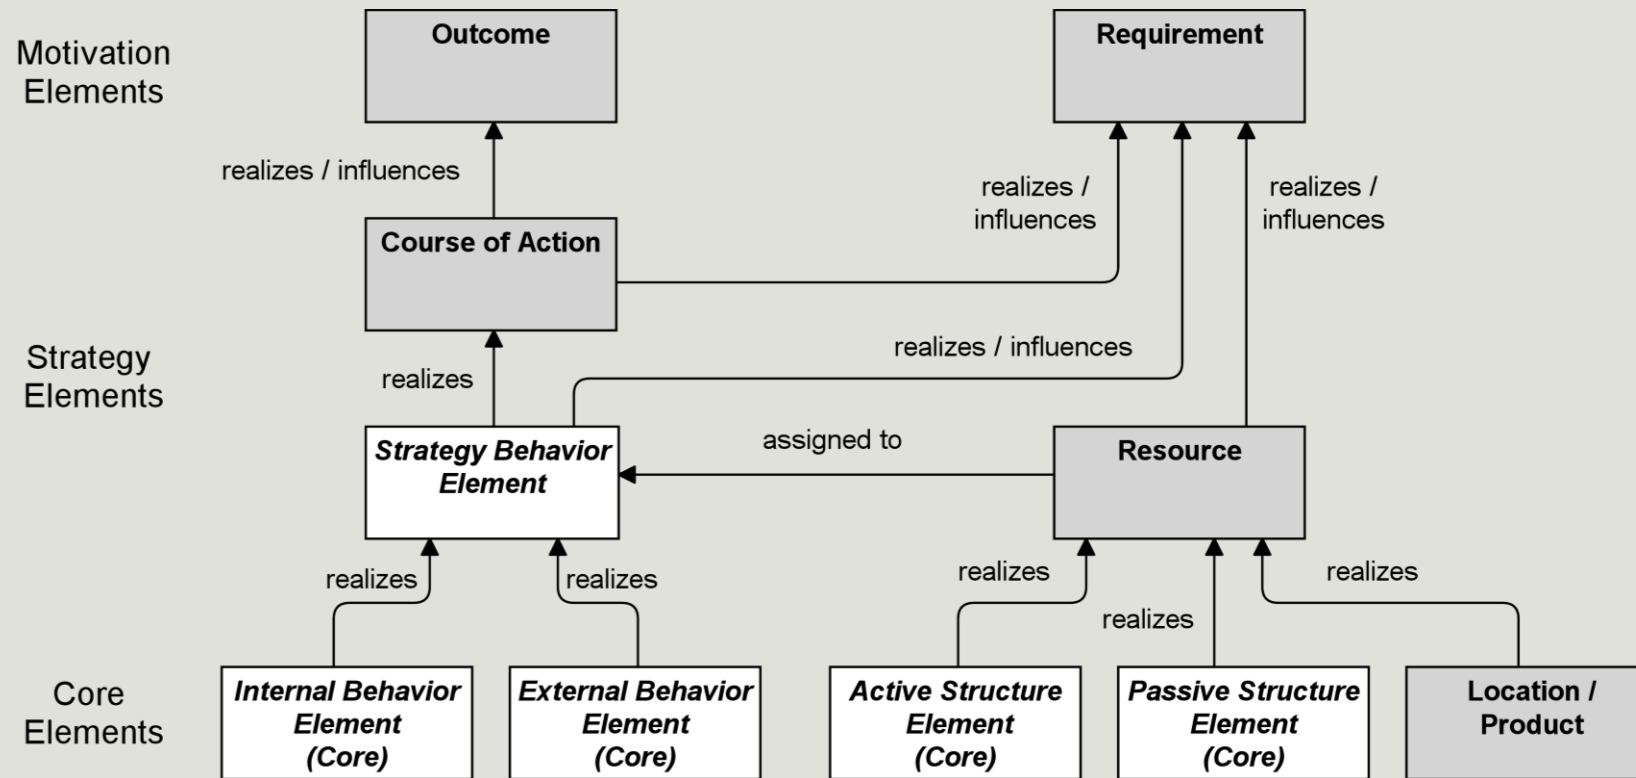

A value stream represents a sequence of activities that create an overall result for a customer, stakeholder, or end user.

A typical Value stream might be for example:  
*Provide Product, Develop Product and Market and Sell Product*
